Professional Summary

Results-driven Oracle Integration Cloud (OIC) Developer with over 2.6+ years of experience in designing, developing, deploying, and supporting enterprise integrations for Oracle Fusion Cloud applications. Expertise includes OIC Gen2 and Gen3, REST and SOAP web services, ERP Cloud Adapter, FBDI automation, BI Publisher, UCM, ATP, and ESS jobs. Proven track record of delivering scalable App-Driven and Scheduled integrations across FSCM, PPM, and SCM modules, with a strong focus on fault handling, logging, monitoring, and performance optimization. Committed to leveraging technical skills to enhance integration processes and drive organizational success.

Core Skills

Oracle Integration & Cloud Technologies:

Oracle Integration Cloud (OIC), OIC Gen3, Oracle Fusion Cloud, ERP Cloud Adapter, REST Adapter, SOAP Adapter, FTP Adapter, File Server, ATP, Database Adapter

Fusion Modules & Business Processes:

FSCM, PPM, SCM, Procurement (P2P), Order to Cash (O2C), Accounts Payable, Suppliers

Integration Concepts:

App-Driven Integrations, Scheduled Integrations, FBDI, ESS Jobs, BI Publisher, UCM, Stage File, Lookups, Packages, Fault Policies, Reusable Integrations

Languages & Technologies:

SQL, PL/SQL, JavaScript, XSLT, XPath, HTML, CSS, TypeScript, Angular, React

Tools:

SQL Developer, Postman, SOAP UI, WinSCP, Git

Additional Skills:

Performance Optimization, Fault Handling, Logging & Monitoring, Agile Methodologies, Requirement Analysis, Documentation

Certification

Oracle Cloud Infrastructure 2025 Certified Application Integration Professional

[View Credential](#)

Professional Experience

Associate Consultant

Arihant Adroit InfoSystems Pvt. Ltd.

Mar 2026 – Present

- Built and engineered Oracle Integration Cloud (OIC) integrations for Oracle Fusion applications.
- Designed and developed App-Driven and Scheduled integrations using REST, SOAP, ERP Cloud, FTP, and Database adapters.
- Implemented and formulated FBDI-based inbound integrations with UCM uploads and ESS job orchestration.
- Created reusable mappings using XSLT, lookups, and Stage File operations.
- Innovated monitoring strategies and implemented fault handling mechanisms for reliable processing.

Software Engineer

AWC Software Pvt. Ltd.

Sep 2024 – Feb 2026

- Developed and devised OIC integrations for Oracle Fusion FSCM using REST, SOAP, ERP Cloud, FTP, and ATP adapters.
- Designed and implemented App-Driven and Scheduled integrations with end-to-end orchestration logic.
- Created and automated inbound/outbound data flows including FBDI file generation, UCM uploads, ESS job submission, and status tracking.
- Formulated structured fault handling using fault policies, rethrow mechanisms, and business notifications.
- Monitored, troubleshot, and pioneered integration stability using OIC dashboards and activity streams.

Software Developer

Abeyaantrix Technology Pvt. Ltd.

Aug 2023 – Feb 2024

- Engineered real-time and batch integrations between Oracle Fusion Cloud and third-party systems using OIC.
- Designed BI Publisher data models and reports and integrated them through SOAP and REST services.
- Implemented ATP and PL/SQL procedures for staging, validation, and transformation of integration data.
- Innovated centralized logging and reusable integration patterns to improve stability.

Software Developer

Mihaan Information Technology Services Pvt. Ltd.

Jul 2021 – Nov 2022

- Built responsive web applications using Angular, TypeScript, HTML, CSS, and JavaScript.
- Created reusable UI components and integrated REST APIs to deliver dynamic user experiences.
- Developed debugging strategies, performance optimization, and usability enhancements.
- Collaborated with cross-functional teams in an Agile environment to deliver scalable solutions.

Software Engineer Trainee

Tecsour Infoserv Pvt. Ltd.

Jun 2020 – May 2021

- Designed and developed responsive web interfaces using Angular, React, HTML, CSS, and JavaScript.
- Collaborated with cross-functional teams in an Agile environment to deliver high-quality solutions.
- Ensured code quality and maintainability through structured reviews.

Key Projects

Mphasis – Oracle Fusion PPM Integrations

- Developed REST-based OIC integrations to update Oracle Fusion PPM project attributes.
- Implemented ATP and PL/SQL for data staging, validation, and transformation.
- Created audit logging and automated email notifications.

Onsemi – Blanket Purchase Agreement (BPA) Integration

- Automated BPA creation and updates in Oracle Fusion using REST APIs, FTP, and ATP adapters.
- Designed transformations using XSLT, BI Publisher, and PL/SQL.
- Engineered header and line-level processing with exception handling.

Innova Solutions – ERP Cloud Integrations

- Built OIC integrations using FBDI automation and ESS job orchestration.
- Implemented FTP operations including List, Read, Write, Move, and Delete.
- Created reusable transformations using Stage File actions and XSLT mappings.

NADA – Oracle Fusion HCM Integrations

- Developed integrations using REST, SOAP, FTP, and Database adapters.
- Exposed secured BI Publisher reports and integrated them into OIC processes.
- Implemented secure connectivity, data accuracy, and performance optimization.

Education

College - Laxmipati Institute of Science And Technology

Bachelor of Engineering – Computer Science And Engineering

GPA: 79.8%

2020
